There is more than one way to create fertile ground, plant a seed, nurture growth, embrace expectations, await a dream, grasp onto grace and answer God’s call.

It takes an array of elements to nurture life in all its forms and through all its stages - the unfolding revelation of the depth of God’s love.

Come Holy Spirit, open us to Your grace that we may faithfully nurture seeds in their becoming celebrate with joy the gifts of harvest freely release the seeds of future tomorrows.
