

Nature as *Spiritual* Mentor

With Gloria Rivera, IHM

Saturday,
Sept. 26, 2020
9 a.m. – 5 p.m.

Maxis Center
17380 Grange Rd.
Riverview, MI 48193

Reconnecting with Nature, or connecting at a deeper level, welcomes a wise companion to our spiritual journey. Join us for a reflective day exploring how Nature as mentor and teacher can enrich one's spiritual journey. Our "sacred text" will be Nature's own richness and 3.8 billion years of wisdom. We will look at some basic patters/principles from Nature and use them in our own personal reflection and communal sharing of insights.

Gloria Rivera, IHM, holds a master's degree in religious studies and has received additional training in spiritual direction. She is the coordinator of Great Lakes Bioneers Detroit, an organization that supports sustainable communities. Sister Gloria believes and teaches that social justice and environmental justice are one movement. She has been a student of Biomimicry for the past seven years and will share her learnings and insights as part of the day.
